KL Bird Park

KL Bird Park

Kuala Lumpur Bird Park is located in the serene and scenic Kuala Lumpur Lake Gardens. It is the home to more than 3,000 birds of approximately 200 species of local and foreign birds.

Sprawling approximately 20.9 acres of verdant valley terrain, the park is divided into 4 zones; Zone 1, 2 and 3, birds are let free in the aviary which closely resembles their natural habitat. With this free-flight concept, birds are able to

breed naturally in this unique environment and Zone 4 is where the birds are placed in separate cages and mini aviaries.

Visitors will have an exciting experience of watching colourful and melodic birds perching and winging about freely while relaxing in a natural and beautifully landscaped surrounding. KL Bird Park is also reputed to be the largest walk-in free-flight aviary in the world.
