Menara Kuala Lumpur (Kuala Lumpur Tower)

MENARA KUALA LUMPUR (Kuala Lumpur Tower) is the seventh tallest telecommunication tower in the world and the tallest in Southeast Asia. Standing at 421m and located in the heart of Kuala Lumpur, we offer a unique blend of Cultural, Adventure and Nature experience not found anywhere else in the world.

Through exciting cultural events hosted at Menara Kuala Lumpur throughout the year and daily dose of traditional dances performed by our talented in-house cultural troupe, you can expect unforgettable Malaysian experience the moment you set foot at our entrance gate!

For those seeking Adventure and adrenalin-rush activities, Menara Kuala Lumpur is known as the World Basejump Centre. The Tower has hosted the longest-running urban BASE (Building, Antenna, Span, Earth) event since 1999 and it is now the largest event of its kind in the world. If that is too extreme for you, experience breathtaking views of Kuala Lumpur skyline

at 276m above ground at the comfort of our Observation Deck.

For those who are inclined to be on the ground, take a walk through a tropical rain forest and experience a variety of flora and fauna only found in Malaysia.

Menara Kuala Lumpur is located within Bukit Nanas Forest Reserve, one of the oldest forest reserves in the country – blending the Tower seamlessly with Nature. In fact Menara Kuala is the only tower in the world located within a forest!

Even though Menara Kuala Lumpur was originally constructed to improve the quality of telecommunication and broadcasting transmission in the country, the Tower has become a significant landmark and symbol identifying Malaysia as a nation coming of age.

Culture. Adventure. Nature. We wish to share it all with you!

[Petronas Twin Tower](#)

Soaring to a height of 451.9 metres, the 88-storey twin structure is Kuala Lumpur's crown jewel. Majestic by day and dazzling at night, the PETRONAS Twin Towers is inspired by Tun Mahathir Mohamad's vision for Malaysia to be a global player. Together with master architect Cesar Pelli, the international icon powerfully captures the nation's ambitions and aspirations.

Visit us and experience the PETRONAS Twin Towers first-hand. Begin your tour with interactive displays that showcase the journey, from idea to completion. Scale 170 metres in an elevator with a futuristic edge. The doors will open at the Skybridge, a connecting structure between the towers and the world's highest 2-storey bridge. Ascend even higher to level 86, where the story of Malaysia's vision unfolds amid breathtaking views of Kuala Lumpur. Then wrap up your visit with exquisite souvenirs at the gift shop.

The world's highest double-decked bridge symbolises a gateway to the future and provides a stunning vantage point of Kuala Lumpur. Linking the towers at levels 41 and 42, it facilitates movement, and functions as an escape route in case of emergencies.

The Skybridge is supported by a "three-hinged arch" consisting of giant round bearings at the base and a pair of legs 51 metres in length. The base of the arch is located at level 29 of each tower, while the cylindrical legs are bolted to a box girder at the centre of the bridge.

The Observation Deck discovers what makes the Twin Towers special through cutting-edge displays and vibrant exhibits. At 360 metres, you'll be able to see a spire up close and enjoy breathtaking views of Kuala Lumpur.
